he was overthrown by french paratroopers in 1979 and went into exile but returned to his homeland in 1985 to face a sensational trial

a gripping political biography of one of africa s most controversial leaders

first published in 1984 continuity and change in france sets out to explore questions by examining the many features of the giscard presidency which have endured under socialist rule few people predicted the election victory of francois mitterrand over giscard d estaing in may 1981 it was greeted by his supporters at least as the first

remarkable event in a chain of far reaching changes which would transform france however it has gradually become clear that political change does not come easily to modern france and that continuity is at least as important this book is at once a valuable review of the 1974 81 period as well as a revealing account of what has changed since then and what despite the rhetoric has not the contributors cover a number of areas important to french presidency and demonstrate the existence of a surprising degree of continuity in terms of both policy and personnel they will be welcomed by all students of french politics as providing the basis for a fuller assessment of the successes and shortcomings of the mitterrand years

second supplement to original 2 vol set
