while economy or budget hotels have been popular in western countries since the end of the second world war they have only emerged as a sector in their own right in china since the mid 1990s indeed as a new service industry sector economy hotels in china demonstrate important characteristics which can be used to illustrate and help explain china s current economic progress more generally this book provides a comprehensive overview of the economy hotel sector in china it covers macro level social cultural economic environmental geographic and development issues alongside micro level consideration of the budget hotel companies innovative management and marketing procedures business expansion strategies general hotel management and operation issues as

well as an analysis of some leading entrepreneurs in the sector and in depth case studies examining the most successful economy hotel companies in china huang and sun argue that the rapid development of budget hotels in china demonstrates how under the influence of globalisation chinese businesses have become more innovative as they apply successful western business models to china in turn they show that the china model is fundamentally different in terms of its driving force which lies purely in its domestic travel market fuelled by china s continued economic growth there is therefore much to explore about both china s market situation and business practices in the economy hotel sector and this book makes an important contribution to our understanding of china s new business environment based on extensive fieldwork and investigation economy hotels in china will be welcomed by students and scholars of tourism hospitality business studies and chinese studies but it will also appeal to practitioners of business management in these sectors who are interested in china s development and business opportunities in china

the asset management handbook is divided into three phases chapters 1 through 3 are conceptual introductions chapters 4 5 6 and 7 get into the meat of the policies and techniques of evaluating the capital needs of your property over the next 40 years chapters 8 and 9 help you identify which properties are doing well and which are the most threatened what action should you take what are the standard preservation and rejuvenation options available to a real estate portfolio manager what is asset management people are more accustomed to thinking about asset management of money or stocks or a package of annuity and savings accounts real estate asset management is a slower longer term process the properties in your portfolio especially in affordable housing have life cycles of 30 40 or infinite time periods most nonprofit owners are not interested in selling to capture any appreciation on their properties their goal is to provide housing for the foreseeable future as long as the asset can perform many nonprofits and mid size property owners do not have a dedicated asset manager it is extraordinarily important that someone take on that long term analysis be it for 10 25 or 50 of a full time employee the next step is to benchmark your properties how are you doing compared to the world not just on straight bottom line consideration but how about in human services have you saved sufficient money to replace the roof or add the sprinklers that will be required at the next renovation the asset management handbook provides well established objective criteria for 25 different variables we've seen participants in the asset management practicum expand that up to 40 variables to analyze on an annual basis well see how benchmarking and risk ranking of your portfolio are essential first steps in establishing its viability and needs capital needs and their funds in this meat of the manual we walk you through essential policies that define how your properties will operate over the long term we show how policies

made by lenders bankers and other short term partners can be self destructive and damaging to property owners holding for the long term first example of the dichotomy the lender is suggesting the reserve is sufficient when two years after their loan matures the property will require 4 million of replacement expenditures this is fine for investment property held for resale you just flip it and get down the road most affordable housing owners do not consider selling the property as a positive outcome even if youve never performed a property inspection before the handbook offers you easy methods of counting and sorting components into well established remaining economic lives then it is on to the massive spreadsheet that calculates the future need and the various waves in which it will appear exterior paint first then roofs windows and doors and kitchens and baths follow and then it starts all over again most capital needs assessments performed by third parties make financial assumptions that are untenable their interest rates on earnings are overstated and their inflation rate on the components are generally understated leaving you with significant shortfalls even if you have escrowed according to directions we will keep you out of that trap showing you the realistic funds that are required and the time periods when the inevitable refinancing windows will occur risk and solutions in the final section we evaluate your primary risks which properties should you address first which properties have the strength and energy to function on their own then what should you do about it refinance renegotiate value engineer raise rents in the foot race the runner is always caught by the tsunami of required replacements it is just a fact of the business that every 20 to 30 years youve got to re invest a significant amount of money

japan s postal savings system pss and fiscal investment and loan program filp are major institutional features of japanese finance that support a wide ranging system of government financial intermediation despite their size and importance they have not received extensive attention outside of japan these institutions manifest characteristics of the pre liberalization regime and despite an official policy of liberalization since the mid 1970s the pss and filp have increased their role in the financial system and economy they resisted reform until 1998 and despite a series of reforms that became effective 01 april 2001 there is concern that reducing the role of government financial intermediation will be a slow and difficult process the process is complicated by japan s depressed economy that is now in its second decade of stagnant or declining growth the book provides an institutional flow of funds theoretical and statistical overview of the pss and filp the book evaluates the contributions these institutions have made to japan s economic growth and the problems these institutions create as japan attempts to modernize its financial and economic system the book provides a positive analysis of the role played by the pss and the filp in japan s impressive growth from 1950 to the late 1980s and the economic

and financial distress of the 1990s the book evaluates the reforms started in 1998 and provides a normative view of what direction reform of the pss and filp needs to take if the goals of the 1996 big bang announcement are to be realized despite the setbacks in the late 1990s and the first years of the new century the 1996 big bang remains the operating framework for financial reform in japan
